"Trade Where The Trading's Good."

No portion of your home can be made more attractive than your bathroom, and at a comparatively small outlay. We have fixtures and fittings that we are proud of and that will please you, and workmen who know their business—who have learned their trade, and who are not experimenting at your cost.

We have also a nice assortment of tub seats, soap holders, towel racks, etc., and shall be glad to show them to you.

Spectacular Baseball.

On Monday night, not having much else to do, Red Deer professionals gave the amateurs a game, and had lots of fun. Jack Gaetz thought he could umpire, but has since changed his mind, I guess. In the first inning neither side got a score. In the second, however, the pros. got three runs by some great good luck. In the third, the amateurs got one, though some of the umpire's decisions looked rather shady, and the pros. were again shut out. In the fourth the pros. began changing their mind around in an effort to stem the tide that was threatening to engulf them, but in checking the players on the field they made a bad mistake, for several of them lost their heads, and therefore used their feet in an uncertain manner, and the amateurs, who were wandering around the bases like scared Deers (notice the clever play on words). Dunn, who had been picking, was batted out of the box and Bliss also had to let a more competent man do the catching. Some of the amateurs did not recognize the fact that the pros. were rattled, and thought they were acting foolish on purpose, and they got angry and told J. Gaetz he did not know his business, which was really a misstatement of facts, for Jack looked as calm as a hen with one chick. However, the pros. got four more runs in spite of all they did, so Perry Smith decided he would have mercy on them and let Perry Manning take his place. That seemed to have some effect, neither side got many runs afterwards.

Time of game, 1:0; attendance, 400; umpire, Gaetz. Score by innings: Amateurs ... 001010-2 Prof. ... 030410-8

Excursion to Experimental Farm, Lacombe

On Monday excursion trains were run from north and south to the Experimental Farm at Lacombe to give the farmers of the province a special chance of seeing how the scientific farming is carried on and how it succeeds. The train went through Red Deer about 10:30 a.m. with a good crowd aboard, and many Red Deer citizens climbed on. They reached the Farm before noon and busied themselves as they liked till the noon hour, when a light lunch was served to those so desiring. During the early hour and right after lunch the visitors were given and admired the small fruit trees, the nurseries, the different shrubs and shade trees, the beautiful flowers and the variety of hedges. The current bushes bore fruit in abundance, white, black and red. Of these the black currant is probably the hardest to grow, but they seem to be lucky enough at the farm. It was past strawberry season, so the plants were nearly here, and it yet a little early for strawberries. Many different kinds of maples were shown growing successfully, as well as willows and many varieties of poplars. Shortly after lunch, after the crowd had looked over the live stock of the farm and inspected the different machinery and labor saving devices, they were divided into several different groups and, under the guidance of Manager Hutton and his helpers, were shown over the main parts of the farm that were sown to grains, grasses, roots, etc. The grain is all in fine shape, being well in head and very even. Some of the hay crop had been cut and was a heavy crop, but it had been damaged by the rain. One of the points that the leaders of the different groups laid stress on was the fact that we can grow clover if we go at it right. The Farm supplies earth to any farmer in the northern part of the province to inoculate his land with, at the rate of 100 lbs. for one dollar, and the Farm pays the freight, 100 lbs. of earth will do an acre of land. They particularly explained the necessity of rotation of crops and showed different rotations they had tried on the Farm. They showed the differences in yield from sowing down with a barley or an oat crop, and many other things of an interesting nature. All questions that anyone wished to ask were answered as satisfactorily as possible, and before the afternoon was over there was no one but when left he had put in a profitable and interesting day.

P. BURNS BUYS OUT F. MICHENER MEAT BUSINESS.
Mr. Frank Michener has sold out the F. Michener & Co. meat business to the P. Burns Co., of Calgary and the store will form one of the Burns retail supply depots over the west. The new proprietors take over the business on August 1st. Mr. Michener will remain in charge for some time. The Burns people succeed to a good business, and the people will hope Mr. Michener will still remain a resident of Red Deer.

Auctioneer Emerson held a very successful sale at Jas. White's, Clearview, on Wednesday last. Live prices were realized on all the live stock, milk cows going from \$50 to \$80.

The Red Deer Horticultural Society

This Society are holding their annual Flower Show on August 21st. That is the first date of the Red Deer Fair, but Mr. Davison assures us that the two will not conflict in any way. Were it not for the fact that the Horticultural Society had their day picked, and prize list out before the fair dates had been settled on, the two would probably have been run in conjunction. As it is, special arrangements have been made whereby those having exhibits at the Horticultural Show can show them at the fair the next day. The Horticultural show was a success last year, and will probably be much better this year, especially if everyone will make an effort to help it along. The efforts of the members have already done much, we believe, in making Red Deer the city beautiful, and more may yet be done. Lawns and grounds will be judged on Aug. 20th.

Obituary Notices

Mrs. Ann Jane Trimble died at Clover Bar, the home of Mr. Latam, where she had been visiting for a week, on Thursday, July 25. She was mother of the late Mrs. A. H. Trimble, Mrs. (Rev.) Leake, Mrs. W. Haghighi, Mrs. Darling and Messrs. William, John, Henry and Edward Trimble. All of these were present at the funeral except Mrs. Haghighi, who is away visiting in the Old Country. The Rev. Gordon, of Edmonton, who was a particular friend of the deceased, officiated at the funeral, which took place to Mount Pleasant Cemetery in the Springfield district. Besides the above mentioned family, deceased leaves a large number of sorrowing relatives.

Lydia Marilla Foster, beloved wife of Mr. A. C. Foster, died at Red Deer on Saturday, July 27, aged 54 years, and was buried on Monday, the funeral, conducted by Rev. W. G. Brown, taking place to the Red Deer Cemetery. Mrs. Foster has been known for many years by many in the district, as she has assisted in the mail route, and her death will be greatly regretted. She leaves a sorrowing husband and family, consisting of her mother, aged 74 years, two daughters, and one son. Her death was rather unexpected, though she had been somewhat of a sufferer for several years. Her character was very unselfish and she was a kind, loving mother, and her many friends have lost a capable and gentle counselor.

On Friday, July 26, John W. Pratt, aged 56 years, departed this life at the residence of J. R. Golden, Delburne. The body was shipped east to Essex, Ont. He leaves a wife to mourn his loss.

LESLIEVILLE.

Remember Mr. Barber's sale, five miles north of Leslieville, on Saturday, the 24th of August, for standard bred mares and colts, and other horses, good milk cows, fine furniture and the best in carpenter's tools. There will also be a large stock of seed to auction the S.E. 15-40-55, exposed for sale.

Yes, the rain has ceased for a few days, but that does not deter the mosquitoes from making lively campaigns on anyone they see or feel. They have been especially spotted in the last few days as many of our tennis enthusiasts will confirm. They seem to be no respecter of persons, of this old and young, fat and lean alike. Even in the heat of the day they assail the unwary, and in the evenings nothing can be done against the savage hordes, but the unfortunate victims must simply beat a hasty retreat for shelter. Several have been killed in this district during the past few days, but their survivors take no warning and continue looking for trouble. Our police force seem powerless to cope with this insidious enemy and menace to human welfare.

FIRST AND SECOND SHOOT FOR STEVEN'S TROPHY.

Name	Handicap	Score
F. Lund	1st 2nd	1st 2nd
G. B. Parker	1	20
Dr. Plaston	1	25
W. R. Davis	1	22
G. S. Ware	8	8
Mr. Chasley	6	25

R. L. Gaetz	2	11
R. C. Brumpton	2	19
R. J. Higgs	2	17
D. A. Smith	2	20

To be shot for every Monday and Thursday. Each man shoots at 200 night targets, but not more than 50 on any night, and must shoot on five nights to have a chance to win. The best average score takes the trophy. Each man is handicapped according to his previous score. There will be six more of these shoots to decide who gets the trophy and any member stands a chance to win.

PUBLIC SCHOOL LEAVING EXAMS.

The lists of successful candidates for the Public School Leaving Examinations are out, and out of a class of 19 in the Red Deer School 13 were successful in getting through. Considering the numbers that have failed throughout the province, this is a pretty good pass. They are: Maude Bell, Harry Ellis, Stephen Fleming, Harold Gaetz, Edythe Jarvis, Christina Jonason, Teddy Kane, Grace Lane, Freda McFriede, Victoria McKenna, Geraldine Parke, Cora Petro, May Rutherford.

We notice that from Penhold Hilda Carswell, Hugh McKenzie and Amy Miller were successful.

THE SELLS-PIOTO CIRCUS.

The Sells-Ploto Circus has with it what you might call a whole flock of babies this year. Of course, every self-respecting show must have a baby, but it is not often that the visitor to the circus manages to find as many as five little tigers, six baby lions, three small bears, a juvenile camel, and last but not least a baby zebu, the first probably ever seen in a menagerie in this country. Added to these is a baby hippopotamus, also three baby elephants, the oldest of which is only seventeen months old. Of this wonderful collection the baby zebu will, no doubt, attract the major portion of the attention on account of its rarity.

The zebu attain their greatest development in India, but the breed is found eastward to Japan and westward to the Niger. All the sculptures of elephants, which are of the highest antiquity, represent these cattle. They are used in many parts of India for beasts of burden, and occasionally for riding, being venerated by the Hindus who consider it a sin to slaughter them, although they do not object to working them.

The white zebu bulls, one of which is owned by the Sells-Ploto Circus, are held particularly sacred by the Hindus. They are branded by the image of Siva, relieved from all labor and allowed to wander at their will, levying contributions on the stalls and bazaars without let or hindrance.

The Sells-Ploto Shows will arrive here on Thursday, August 8.

You'll have a big time at the Central Alberta Fair, Red Deer, Aug. 21, 22, 23.

Synopsis of Canadian Northwest Land Regulations.

Any person who is the sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader. Duties—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, solely owned and occupied by him or by his father, mother, son, daughter, brother or sister. In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price \$3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra. A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for purchased homestead in certain districts. Price \$3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$300.00. W. W. COHY, Deputy of the Minister of the Interior. N. THE DIAMOND CIPHER

By W. A. PHELON

—A New and Original Mystery Story of the Great National Game—

(Continued from last week)

claimed: "By blazes! Gentlemen, it's too much for me!" A general burst of laughter followed and Brockett felt the last traces of embarrassment melt rapidly away. "Mr. Brockett," interrogated the chief, after the merriest died down, "how old are you?" "Nineteen, sir." "High school six? Then one year at Columbia. Had to leave when my father died." "Yes, see—making it essential for you to support the family, I suppose?" "Yes, sir."

"I have picked up Spanish from a friend, a Cuban, Ramon Solano." "Hm, hm. That accounts for your remark of yesterday—that a Cuban might understand this cipher. Have you shown it to your friend, Solano?" "Yes, sir. In fact, he suggested some of the points in the cipher, and can read it as well as myself." "Hm, hm. Rather sorry about that. Is this Solano a good, square fellow?" "Best in the world, sir. He's a real American in everything but his birthplace, chief. I'll vouch for him every time."

The secretary of the navy spoke up at this juncture. "I think I know this young Solano," he interposed, "and I know his father. If I am not mistaken, he might be the very man we need in the affair now under discussion."

Chief Brockett resumed the interrogation. "Mr. Brockett, would you be willing to take a chance for your country? A chance that might involve risking your life a dozen times, and which might not yield you even a taste of glory as your reward?" "I am willing to do anything I can possibly accomplish, if you give me the word, chief."

"Good boy! I sized you up that way the first time I ever saw you in the office, son. Could you say as much for your friend Solano?" "Yes, sir. I think Solano would go to any lengths to prove his love for the United States."

"Very well. This afternoon, Mr. Brockett, kindly make duplicate copies of your cipher for General Cole, the secretary of war, the secretary of the navy, Mr. Pinkwell, and myself. By the way, we might as well have it done now, and save the time. Mr. Brockett, will you call in Miss Lawson?"

Brockett had half-opened the door, when he faced around, closed the door again, and looked calmly into the eyes of the puzzled chief. "Chief," he exclaimed, rapidly, "I'll make out the duplicate copy of the key myself. Anyone who was unused to that sort of work might confuse the symbols. I will have them done early in the afternoon."

eral, pleasantly enough, but with something governing the tone of the calm, even voice—something that seemed to electrify both young men like the current of a mighty battery—"I believe that I can make you—and your young friend—quite useful in the immediate future."

Solano gasped, astounded, and fixed his big black eyes upon the general's face. Brockett nodded, and leaned forward, expectantly. "I have had considerable experience with government and military ciphers," the soldier continued, "and I must say that yours is the most extraordinary jumble on record. I have never looked upon. For that very reason, my boy, I am forced to believe that you have stumbled upon something of real value to the army, the nation—and your own personal future. I can't figure where any expert in the world could read that cipher without a key, and an untranslatable cipher, right now, is imperatively needed. If, during the next thirty days, the war department—yes, and the navy, too—can transmit certain important messages, without danger of their being transcribed by hostile influences, a service of the most notable kind will have been performed for the country. Do you follow me?"

Brockett nodded eagerly, but Solano could not shift his great black eyes from the general's visage. The old warrior resumed his speech. "Mr. Brockett, of your cipher, and a message, written in that cipher, must be carried, by a messenger on

reached for a pen. It was broken. An hour proved equally useless, and Solano fumbled in his pocket for a pencil. A little man seated on the next stool turned quickly, and professed him in help—quite one of those annoying contrivances which were invented a few years ago to displace both lead pencils and fountain pens—by which one has a memory, and nothing more.

"Very annoying, the unpleasant device," said the little man, amiably. "Permit me that I am of a little assistance." And Solano, as he scribbled his brief cablegram, gave thanks, with true Latin politeness, to the stocky, scar-faced Japanese who had walked past Brockett and himself the previous day. When the Cuban left the telegraph office, the little man caught up the pad of cable blanks, scrutinized the impressions left by his message, and, despite the fact that the cablegram had been written in Spanish, seemed to have no trouble in deciphering its meaning. Whatever information he gained, however, seemed to afford but small satisfaction. He smiled mirthlessly, transcribed by hostile influences, a service of the most notable kind will have been performed for the country.

Brockett's mother, a sweet-faced, thoroughly feminine, but thoroughly sensible woman, did not offer any serious objections to her son's acceptance of the strange commission so shortly entrusted to him. Mrs. Brockett, in fact, cherished an abiding belief in the foresight and the boldness of her boy—a belief that he could take care of himself under almost any circumstances. Bertha Brockett, Harry's only sister, was not so sanguine. In her sixteenth year, she had been a victim of the most atrocious and ferocious bandits, Yaqui savages, and ferocious Yaqui savages. As Mrs. Brockett was not only eloquent, but extremely pretty, her arguments might have dissuaded almost any young adventurer—unless the adventurer happened to be her brother. Sisterly counsel and entreaties have been wasted on the wandering winds for many a month, and, presumably, always will be.

Young Brockett had dined, had received some excellent advice from his mother, and had brushed the imploring sister with much humor. He was glancing over the evening paper, and waiting the arrival of Ramon Solano or of the messenger who should bring him his instructions, when the door bell tinkled lightly. Bertha, answering the bell, admitted a stocky, well-dressed man of middle age—a very little fellow, with one cheek crossed by a broad, indented scar. The boy remembered the Japanese gentleman whom he had seen stop Miss Lawson on the previous night, but gave no sign of recognition as he looked for a moment at his Oriental visitor. "There was Old World politeness in the courtly bow with which the stranger greeted his self-introduction. "I speak to Mr. Harry Brockett?"

"By your service, sir. You are Mr. Brockett?" "I am Mr. Yozimoto. Of Tokyo, Importer of Oriental goods."

"Won't you sit down, Mr. Yozimoto?" "Thank you, yes. May I speak of the business that brings me to you, Mr. Brockett?"

Brockett, wondering, nodded his assent, and the Japanese spoke suavely. "Mr. Brockett, I am a man who has much very much of business trouble. There are many who are competitors with me in the honorable occupation of importing Oriental wares. You doubtless can comprehend that?"

"Perfectly, Mr. Yozimoto."

"There are, of these who are competitors against me, some whom I do not like by name, but who are competitors to me means not wholly honest. I am sorry, much, that I say this of my countrymen, but it is truth I tell you. I have reason to believe that you, Mr. Brockett, are a man of honor and integrity. So I have come to you, Mr. Brockett."

"To me? Why, what can I do for you?" "That shall now be told you, Mr. Brockett. I could now make use of some new, some very different correspondence cipher. If in English, it would be very good—any firm has at home most admirable English education. I need hardly tell you that you, Mr. Brockett, have devised such a cipher. A cipher of most honorable excellence. If this cipher were to be adapted to the use of commerce, I would pay you, in fact, Mr. Brockett, I pay you \$5,000. And that, I do not want the valuable time, I pay you, if satisfactory or no, \$500 that you only demonstrate for me the idea of your cipher. If I shall prove satisfactory for the commercial purpose, I pay you \$5,000. And that, I do not want the valuable time, I pay you, if satisfactory or no, \$500 that you only demonstrate for me the idea of your cipher."

The smiling Japanese had drawn forth a thick, prosperous-looking wallet, and was fumbling with it, when Brockett, slowly, but emphatically shook his head. "Mr. Yozimoto, you have been misinformed. I cannot imagine where you gained your information, but it is wrong, completely wrong. I have no cipher for sale, and am sorry that I cannot oblige you."

"You another time. I will bid you the honorable good evening."

"The Japanese had hardly departed when Ramon Solano put in an appearance, much to the delight of the Brockett family, with whom the Cuban was a prime favorite. Greetings exchanged, the boys plunged promptly into the subject of mutual interest, Solano firing the first gun.

"No message yet from General Cole?"

"Not yet. Just had an odd caller, though."

"The Jap we saw talking with that stenographer last night? I passed him as I came in. Curious thing: when I cabled to Havana this afternoon, he was beside me at the Western Union office, and loaned me an ink-pencil."

"Nothing at all aside from informing my father that I would take an extra month for my vacation, beginning now. Even if he could have read it—it was in Spanish, too—that would be of much value to him."

"Hardly. I am beginning to do some extensive thinking about that Jap, though. Listen to the proposition he tossed me ten minutes ago. And Brockett rapidly outlined the tempting offer made by Mr. Yozimoto. "Something doing, sure," commented Solano. "I can see nothing clearly. Ily. He fancied that you would sell him a duplicate of your diamond cipher. I cannot figure out how he could get in touch with that idea so quickly. Yes I can too. The stenographer! By the way, Harry, I forgot to tell you—I have seen that girl chatting with this same Japanese two or three times. You remember that when we saw them together I was trying to reach some word, some idea, some when I had noticed one or both of them?"

FIRST GRAND CHAPTER OF ORDER OF EASTERN STAR ORGANIZED

Eastern Star Delegates Met; Presentations to Rev. and Mrs. Engle and Mrs. Duff.

The first grand chapter of the order of Eastern Star in Canada was organized in Calgary last Saturday by Rev. W. Engle, of Connecticut, the most worthy grand patron of the general grand chapter. There were three sessions held at Alexandra Hall, during which Bow Valley Chapter No. 5 opened them, Chinook Chapter No. 3 demonstrated the work in the city, and Mizpah closed the meetings, after which a banquet, at which everybody got acquainted and had a most sociable time, was given by the local lodges.

Several presentations were made. These were a purse of gold to Mr. Engle, and a beautiful gold watch to Mrs. Engle. These gifts were presented by Mrs. MacLaren, the past matron Chinook chapter. Mrs. Engle and Mrs. Duff, of Mountain View, Chapter No. 1 at Olds, who was appointed grand matron of the first Alberta grand chapter, were presented with exquisite bouquets of flowers, the colors of which were the same as the five emblematic colors of the star. These were presented by Mrs. Shope and Mrs. Jamieson.

The visitors greatly admired the spacious and well-equipped lodge room in Alexandra Hall, where the Chinook chapter holds its regular meetings.

During the afternoon the "Seeing Calgary" trip was taken in the new sight-seeing car. Mr. and Mrs. Engle have left for Vancouver, where another grand chapter will be organized in the near future.

The following grand officers were elected:

Grand Matron—Mrs. J. Duff, Olds, Alta.
Grand Patron—S. Blair, Calgary.
Associate Grand Patron—Mrs. C. Bruce, Lacombe.
Associate Grand Patron—P. Pidgeon, Red Deer.
Grand Secretary—W. Zwerner, Calgary.
Grand Treasurer—Mrs. Beveridge, Calgary.
Grand Conductor—Mrs. J. Lafferty, Lethbridge.
Associate Grand Conductor—Mrs.

L. Kenny, Wainwright.
Grand Chaplain—Mrs. P. Pidgeon, Red Deer.

Grand Wardens—Mrs. Mitchell, Aik. Star Points: Adah, Mrs. Johnson, Olds; Ruth, Mrs. J. Malcolm, Killam; Esther, Mrs. M. A. Davidson, Calgary; Martha, Mrs. Tipton, Strathcona; Electa, Mrs. Gould, Red River.

The first meeting of the Grand Chapter of Alberta will be held at Red Deer some time in October.

Boy Scouts at Ponoka

The Boy Scouts returned last Saturday from their camp at Ponoka. Although there was rain every day, the boys all had a good time and are enthusiastic over the "United Camp." There were to have been Scouts from Aik, Wetaskiwin, Lacombe, Stettler, Red Deer and Ponoka, but the weather was so unfavorable that the Red Deer troop was the only one to turn up. The Ponoka boys camped with them and at every chance the two troops were out scouting or playing games. Shields were put up Ponoka men interested in the Scouts for football and baseball. The Red Deer boys won the shield for football, but the weather was too unfavorable to allow the baseball game to be played. However, the Ponoka boys promised to come down to Red Deer as soon as possible and play for the shield.

Rev. Mr. Creighton, of Edmonton, was down for a day and gave the boys some interesting lectures on ambulance work and Morse signalling. On Friday afternoon the Scouts were shown through the asylum and were greatly impressed by the magnitude and cleanliness of the buildings and by the appliances.

In the evening the Scouts of Red Deer and Ponoka were given a banquet in the town hall. Speeches were made by Ponoka's leading men and toasts were made to "The King," "Canada and the Empire," "The Boy Scouts," "Athletics," "The Ponoka Scouts," "The Red Deer Scouts," and "The Ladies." Then a vote of thanks was passed to the Ponoka ladies, and the banquet, after "God Save the King," broke up.

Both troops broke camp on Saturday and the Scouts parted with mutual desires to meet again.

Organizing New Municipalities

Edmonton, Alta., July 25.—More than a hundred agricultural communities in the province of Alberta will be organized this year under the Rural Municipality act, passed by the last legislature and effective in 1913. The department of municipal affairs has so far received requests for petitions to organize municipalities to be held in 35 localities this month and that petitions may continue to be taken until November.

Charles Stewart, minister of municipal affairs, announced in Edmonton today that the affairs of all local important districts in the province, whether or not they are to be organized, must be wound up the coming fall, when an official audit will be made of the board of the authorities. Any balance shown on the debit or credit side will be taken over by the new organization.

The new system provides that taxes shall be levied equally upon all rateable land in the municipality according to the assessed value of such land. The assessment plan is based upon the following provision in the Rural Municipality act:

"Land shall be assessed at its actual cash value as it would be appraised in payment of a just debt from a solvent debtor, exclusive of the value of any building erected thereon or of any other expenditure of labor or capital thereon."

The question of taxation is dealt with entirely by the council of the municipality. The new act fixes the limit to taxation for municipal purposes at 10 mills on the dollar. It is not expected that a rate will be levied to exceed \$8 per 100 acres, and in many cases the rate levied will not exceed \$3 or \$4.

With a view to encouraging the cultivation of farm lands in the province, and at the same time discouraging the speculative holdings of large acreages, several important amendments will be brought to the attention of the next legislature. One of these is a recommendation that the present refund of 25 per cent on all taxes on cultivated land be increased to 50 per cent. This, it is believed, would have the effect of driving the absentee speculator out of the field. Other amendments will be based upon the actual experience of municipalities when the act comes into operation next January.

ary. The act provides that every municipality shall, in so far as is practicable, comprise an area of 16 miles square, or 224 square miles, and all municipalities shall be laid out on a uniform plan as the conditions of the system of the Dominion land survey and the physical features of the province will allow.

The minister of municipal affairs may sever any portion of a municipality and annex the same to any adjoining municipality; annex to any municipality outlying area hereafter acquired but not included within the limits of any municipality; alter and adjust the boundaries of two or more contiguous or adjacent municipalities; or withdraw from any municipality any area hereafter established as a village under the provisions of the village act, passed by the legislature in 1907.

John Perrie, deputy minister of municipal affairs and tax commissioner of Alberta, made the following statement at the government building in respect to an inquiry as to the operation of the single tax system in the farming districts:

"The only taxes levied in the rural districts of this province are those levied on lands. No taxes are levied on improvements or personal property. This method of assessment is a fair one and is satisfactory to the farmers. In fact, any change to a system of taxation whereby improvements or personal property are assessed would be strongly opposed to them. We have found no demand for the tax system being changed so that taxes would be levied on improvements and personal property."

Edmonton, the most northerly city of the 50,000-class on the American continent, is not only successful with the single tax system, but has also worked out a satisfactory plan of municipal-owned public utilities, operating street railway and telephone lines, water works and electric light and power plants. The municipality has plans to install a gas plant costing \$700,000, and also has experts at work making test holes in the vicinity of Edmonton for natural gas wells.

The city of Edmonton owns and operates 40 miles of street railway lines, a water distributing system of 90 miles of mains, and an electric and power plant of 5,000 k.w. Three hundred and fifty thousand square yards of paving, estimated to cost \$1,250,000, will be laid this year. At the beginning of 1912 the city had 217,129 square yards of paving. Improvements in the next two years will cost \$5,000,000. The municipality owns two industries.

trial sites of more than 240 acres in the southern and northern parts of the city, where factory sites can be leased on long terms on a basis showing 6 per cent. on the cost. The business tax has been abolished. Electric light and power and water for manufacturing purposes are sold at a minimum cost.

The tax assessments this year amount to \$123,000, exclusive of exemptions, and it is anticipated that the rate will be about 12 mills on the dollar, as compared with 13.7 mills in 1911.

Gave Services Free

Regina, Sask., July 23.—In response to requests for accounts, the Moose Jaw doctors who came to Regina on the night of the cyclone have written saying their services were given without a thought of reward, nor would they accept money. The Moose Jaw nurses have written to the same effect, and the Regina nurses who gave their services at the time have without exception returned the cheques sent to them.

A cheque for \$12,000 has been added to the contribution of the Canadian Manufacturers' Association, making \$25,000 in all from that body.

C.P.R. Orders 2,000 New Cars for Crop

Montreal, July 26.—A bumper crop is expected in the west this year and the C.P.R. is making every effort to meet the demands that will be made on cars for transportation of the grain to the elevators in the various parts of the country. It is with this object in view that an order has been placed with the American Car and Foundry company for the supply of a thousand cars and for a similar number with Barney and Smith company.

AN AUGUST CLEAN-UP, LASTING TWO WEEKS, ONLY COMMENCING FRIDAY, AUGUST THE 2ND

THIS store has a fixed policy that must be lived up to and all goods purchased for this season must be sold with its close. No half measures now. All surplus lines must be reduced and closed out. These advertised prices hold good just two weeks—provided the quantities hold out. Don't wait thinking you are going to get something for less money than the present rock-bottom prices; you'll be disappointed if you do, and besides, where prices are at present you cannot afford to wait, for the lines will not hold out any length of time. It is best to come as soon as possible after reading this announcement. The following will be of interest to you:—

A Sale of Ladies' Suits

THAT WILL MAKE A LOT OF NEW FRIENDS FOR THIS STORE

Moderate prices are the creed of this store—a lapse from which would be a step backward in our work of building up store-friendships.

In this sale of Suits we are aiming to make a lot of friends for this store—and that would be a foolish aim if we did not make it pay you to come here.

You'll not make any mistake in looking elsewhere first—but you would make a big mistake in buying elsewhere before you had examined these Suits.

- 1 only Regular \$37.50 Suit, Sale Price \$25.50
- 5 only Regular 30.00 Suits, Sale Price 22.50
- 3 only Regular 23.50 Suits, Sale Price 21.50

CENTRAL ALBERTA FAIR.

Everything seems to be working out as if preordained that the great fair in the history of Central Alberta, to be held at Red Deer on August 21, 22, and 23, should be a tremendous success. The officers of the Society, especially W. E. Lord, President, and F. W. Bjorkeland, Secretary, are splendid workers, and are sparing neither labor, pains or expense to make this show easily the greatest exhibition ever seen in these parts. They are going to give the farmers of this locality a real chance to show what they can do, and if the farmers do not take the chance, may their blood be on their own head. But they are not putting all their attentions to one thing, viz., exhibiting, but they are engaging some of the best entertaining companies to be secured, and there will be events of interest and amusement going on all the time during the three days of the Fair. The Secretary informs us that he has already received many entries, and he has no doubt of the unequalled success of the Fair, but the only question is just how far above anything ever held here before it will be, and in a measure this is up to you, Mr. Farmer and Mr. Townsman.

BETWEEN OURSELVES.

(By Acadia)

The two Red Deer Editors enjoyed a brief and well deserved vacation during the past week, visiting Nelson, B.C., in connection with the Press Association Convention. These busy men are rarely appreciated at their true worth, and are themselves so much occupied in seeing justice done to others, that they are not often appraised as they should be. We take this opportunity, in their absence, to express our sincere appreciation of their many excellent qualities, both as men and editors.

Edmonton citizens invaded Red Deer during the past week, fraternizing with our tradesmen and citizens. Various points were visited and many expressions of surprise were heard at the appearance of Red Deer as a town of evident importance. We confess a sincere admiration for the city from which these visitors come, with its fine wide streets, its lofty police on the banks of the north Saskatchewan, and its spirit of hustle and optimism. Alberta's Capital city places a magnificent future to which its citizens are wide awake. For the compliments left in Red Deer, as the prettiest town in Alberta, we reply in kind to the best looking and most promising city in the Province.

A strange sign greeted us a few days ago; it read "Trespassers will be prosecuted." The fact that it was a very old sign in a very new land attracted our attention. There was something uncanny and disconcertingly familiar in its appearance. We left it with European medievalism and feudalism some fifteen years ago; the scenes which it abounded have grown dim to memory. It was a shock which hurled us back rudely to the fatherland, to the home of "Landed Gentry," frowning castles and baronial halls, where even the gardens were walled to Heaven. Beyond this sign was a walk and a gate; it was a place of beauty where lovers might wander, but the gate was locked.

the next member for Innisfail. They will have a chance to use this fine brand of sorrow on John Simpson after the next election.

We visited the museum a few days ago and were much interested in Dr. George's really unique collection of natural specimens and curios. This collection is worthy of a name less forbidding than that of museum. We confess that memories of other collections, even of the great British Museum, bring a recollection of physical weariness, which museums somehow seem generally to induce. It might be a difficult matter to find the name, but we believe the genuine interest and real merit of this collection should not be obscured by such a sombre legend.

We could wish for this rare and interesting collection, a better patronage. Let every man, woman and child who has not paid this shrine of the curious and wonderful a visit, lose no time in doing so.

The member for Red Deer visited the eastern part of the riding last week in connection with road matters and was gone for three days in the mud and rain. The roads are in a most deplorable condition, and until the Government tackle this matter in earnest, the same conditions will continue to recur frequently. If there is one thing in which the member for Red Deer is consistent it is his advocacy of good roads and drainage. So long as we have a Government, at the head of which we have a Premier who makes no bones about saying that he does not believe in putting money in mud holes, and whose appropriation for drainage for the whole province is the same as for the foundation of a Lieutenant-Governor's residence, we are not likely to make much progress in road building. We have everywhere of farmers with produce or grain to sell, who simply cannot market it on account of the condition of the roads, and who are therefore financially embarrassed. Meanwhile the reckless government is plunging the country into millions of indebtedness and millions of liability. Two Liberal Governments, one of which has been in power for two years without an appeal to the people, have been responsible for \$15,000,000 of provincial debt, and liability in bonding railways amounting to about \$120,000,000, while for years only \$200,000 has been available for roads. This year, true, a million additional has been appropriated and intended for this work, but in view of a possible general election, and the urgent need for funds with which to defeat the will of the people, it is doubtful if very much of this money will find its way to the proper place.

QUITE A BIT HAPPENED.

For the benefit of some people who have been wondering what would happen if a mad bull charged a railway train, we print the following article:

London, Ont., July 24.—A bull which broke out of a field near Ingersoll as the way-freight running from Toronto to Sarnia was approaching, charged the engine, and before Engineer Bailey of Parnia could stop, the train struck the animal and the locomotive and eight cars were derailed and the line badly torn up. The London auxiliary worked for twelve hours clearing up the wreck.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Public Building, Lethbridge, Alberta," will be received at the office until 4.00 P.M., on Wednesday, August 14, 1912, for the construction of the building mentioned.

Plans, specifications and form of contract can be seen and forms of tender obtained at the office of Mr. J. E. Cyr, Superintendent of Public Buildings, for Manitoba, Winnipeg, Man., on application to W. C. Norman, Caretaker, Public Building, Lethbridge, Alberta, and at this Department.

Persons tendering are notified that tenders will not be considered unless signed on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 per cent) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned. The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS, Secretary.

Council Meeting

The regular meeting of the Council was held on Thursday evening last. Following is the Commissioners' report.

COMMISSIONERS' REPORT.

Mr. S. A. Hole, of the Forest City Paving Co., has arrived and started work. We advised him against taking up a great length of sidewalk until he was ready to put in his gravel filling on account of making it bad for pedestrian traffic. He said weather conditions were against him procuring gravel. He subsequently reported that he had purchased two lots in North Red Deer with first class gravel and that there would be no further delay in that connection. He will, however, in the future refrain from taking up sidewalk too far in advance of construction.

We have had communication from Mr. Clarke, Toronto, regarding validity of recent by-laws. He requests some minor alterations and a few additional supplements, which our solicitors have taken up with Commissioner Stephenson and all matter has been forwarded to Mr. Clarke in good order by the city's mail.

We have ordered the Western General Electric Co. to alter location of poles on 5th St. N.E. between Galt and 2nd St. N.E. over to be paid by the Town. This was caused by the above section of 5th St. N.E. being out of alignment. Presently your verbal report at informal meeting of Council for a reconsideration of the street grade on 5th St. N.E., and appointing Councilor Botterill to act as one Mayor and Engineer in connection therewith and power to act, we respectfully submit the following:

1st. We endorse the engineer's report, which you will find on the table, believing that it will be less expensive for the Town to fill and be much more satisfactory to property owners, as the walk will be more in line with their property frontage.

2nd. The above committee have ordered that the walk be built up to street line, so that our traffic surface will be 30 feet, at the same time providing a 4 foot boulevard. As a general principle we believe that a 3 ft. strip between walk and property should be maintained where the streets are generally composed of some nothing more than residential, but on 5th St. N. we look forward to the possibility of considerable traffic, eventually two street car tracks will no doubt be placed on this street, and before the life of the walk is done this street might easily become semi-business, therefore provision for the wider traffic base is commendable.

3rd. The walk itself is easier widened to the outside than inside to property line.

4th. The physical conditions of the street adapted itself well to this order. On account of the sidewalk being wrong between Galt and 2nd St. E., some of the property owners will have as much as 10 ft. more frontage to reach the back line on the south side of the street which will be the north side of the street high banks of property have been built to the street line.

According to your instructions, you will find on the table a supplement to report four on Ross St. and 1st St. E. Councilor Malcom will give special arrangement give you the price at which the whole block can be purchased, providing you were to adopt the engineer's report.

On the table you will find supplementary report on drainage of creek bottom, having now had a complete report on the bottom west of Galtz Ave. We trust this will give you our instructions at once.

Our solicitors are taking up the matter of C.P.R. encroachment on 1st St. South West and Kingsmill Ave. We have given them a plan showing the exact existing condition. The Manager of the Western General Electric Co. has returned home and when Mr. Stephenson is well enough to act we will have a conference regarding stand-pipe water pressure and increased lighting.

According to Chief Meers' report of July 11th, we have purchased eight hand chemicals, and will have the water-main extended along 3rd St. S.E. to 6th St. S.E. in order to give fire protection to the exhibition buildings.

Re. the matter of extending Galtz Ave., The Cement Builders, Ltd., will provide road allowance through Mrs. Ballard's lots, and we are taking up the matter of right of way through the town-site property with their representatives.

Agreements between Hospital Board, McKenzie & Baird for municipal building and industrial building, and Evan Roberts for cattle and horse barns, have all been duly signed.

All outside municipal work is being held back by the weather conditions, but the best possible progress is being made under existing circumstances.

We submit herewith list of accounts for your authorization to pay. Commissioner Stephenson is gaining in health and we trust he will continue to do so.

All of which is respectfully submitted.

R. B. WELLS, Mayor.

COMMENCE CUTTING ALBERTA WHEAT.

Lethbridge, Alta., July 25.—Wheat cutting in Southern Alberta commenced Wednesday. Supt. Fairchild of the experimental farm in cut and binders into several plots of winter wheat which is ripe and in fine condition for cutting.

Sells Floto Circus

To those who visit the Sells-Floto
circus when it arrives here on
Thursday, August 8, it might be well
to hint that an early visit to the
menagerie has its advantages.

The doors open one hour before
the performance proper commences,
and during that time the famous
Sells-Floto Military Band, under
the direction of Walter P. English,
will give a popular concert, in which
several noted soloists will render
special selections. There is no extra
charge for this because the Sells-
Floto people have always main-
tained it as one of the big features
of their entertainment. Among the popu-
lar numbers will be a cornet duet
by Messrs. White and Conney, and
the celebrated sextette from Lucia
by Messrs. Werner, Dye, King, West,
English and White. Miss Ruthenford,
who has no superior as a saxophone
soloist, will also appear, rendering
many of the latest and most popular
descriptive selections. The band can
be plainly heard by the visitors to
the menagerie, so in order to enjoy
it, it will not even be necessary to
enter the big tent until the performance
proper commences.

AUGUST 12 AUGUST 12 AUCTION SALE

of High Class Valuable Household
Furniture in Red Deer, on

MONDAY, AUGUST 12th, 1912.

Instructed by R. C. Brumpton,
Esq., who is leaving, we will sell by
public auction his valuable house-
hold furniture and effects, the same
being removed to the Smith & Gaetz
Block, No. 2, opposite J. McVicar's
bookstore, for convenience of sale.

Following is a partial list of the
goods to be sold:
10 kitchen chairs and cabinet;
clothes rack; wash tubs; carpet
sweeper; dishes and glass ware;
bread pan and mixer; 8 doz. sealers;
garden syringe; vacuum cleaner;

and hall carpets and rugs; curtains;
dresses and commodes with bevel
plate mirrors; iron beds, springs and
mattresses; mirrors; toilet ware,
and many other articles.
Double-barrelled shotgun and a set
of single harness.

The above certainly presents an op-
portunity seldom met with of get-
ting some real good furniture at a
very low price, as everything is be-
ing sold, and having been through-
ly used, the auctioneers can strong-
ly recommend it, much of it being
equal to new, having been taken
great care of, so that it is hard to
find a scratch on it.
Goods on view Saturday evening,
the 10th, and morning of sale.
Two of Sells' Cash, unless ar-
rangements are made with the owner
previous to day of sale, which is

CO-OPERATION IN ACTUAL PRACTICE

Some fifteen years ago a number of farmers of Red Deer and the adjoining country of opinion that they were hardly getting on for what was coming to them for the sale of their milk products, and they decided to get together and form a co-operative of their own. This proved such a success that a year or two after they decided to extend this scope and take up all lines of the produce of their farms. Later, about three years ago, the active members decided to organize a co-operative society, within the local union of the United Farmers of Alberta. Accordingly, the society was launched, with Jas. Bower, president of the United Farmers of Alberta, as president. Mr. C. A. Julian, Sharnock, of the Old Basing Jersey Stock Farm, as vice-president, and nine directors picked from the different localities around Red Deer.

The members of this association must be members of the U.F.A. and there are at present some 100 farmers from Red Deer, Penhold, Blackfalds, Innisfail, Lake View, Burnt Lake, Reville, Edwile, Pine Lake, Solonville, Hillsdale, Malbank, and Markerville doing business through the association. The society went on doing business for some time as pure farmers' co-operative association, but it was found out that a great drawback was that it had no legal standing under its original charter. The association could not own property and the growing agitation among the members and throughout all the western country for co-operative legislation, forced the Red Deer association to take steps to have the society incorporated as a joint stock company. The main reason for incorporation lay in the fact, as before stated, that the association under its old co-operative standing could not buy or lease elevators, and storage room was badly wanted for grain. Also it could not buy land, although it had some splendid opportunities. Thus it was that a new organization became incorporated as a limited company called the Farmers' Co-operative, Limited, on May 17, 1912, under the North West Territories Act, respecting companies.

In becoming a member of the association, a farmer on making application, must be a member of the United Farmers of Alberta, and he agrees, if accepted, to be governed by and abide by the by-laws and general rules of the association now in force or which may hereafter be brought into force.

He also agrees to become security for and liable to the association for the payment of all debts and liabilities incurred by the association through its officers or trustees acting in accordance with the by-laws and rules of the association, while he is a member, or for any matter or thing connected with the association arising out of or connected therewith during such membership.

When a farmer is duly appointed a member, he agrees subject to the rules and regulations of the company to place with the association a part of the produce of his farm to be placed on the market by the association and to be sold in accordance with the by-laws and general rules governing the working of the association, and gives the following declaration:

"The under mentioned farm produce is a list of produce which I now place with the association for sale. I agree to deliver such produce to a station on the Calgary & Edmonton Railway, or Red Deer, or at such place as may be required, not being further distant from my place, and load the same on to a truck, or shipment or in storage as may be and whenever required, within a reasonable time, but in all cases not later than the last undesignated date. In case I should fail to do so, I hereby agree to pay to the association all loss, cost and expenses which the association may incur by reason of such failure on my part."

The Red Deer Association have been particularly fortunate in having at their head like Mr. Bower and Mr. Sharnock, men who both have the univided interests of the farmers at heart, and in their Secretary, Mr. Edwin Carswell, they have a man particularly fitted for the arduous duties of Secretary-Treasurer. The duties of Secretary-Treasurer in an undertaking of this sort are by no means light, and with Mr. Carswell's knowledge of the country, of its agricultural interest, and of the many pertinent questions pertaining to his particular district, as well as being a shrewd business man at the end of a bargain, with a thorough knowledge of stock and everything that goes to make an active farming community, he is particularly well fitted for the post. He occupies among the duties of the Secretary-Treasurer are that he shall open up and carry on a correspondence with all dealers in or consumers of farm produce, obtaining all available information regarding their financial standing and where possible getting the names of other correspondents, receiving their offers, forwarding quotations, and generally transacting such business as the representative of a commercial house would be required to do, and all such other works necessary for the carrying out of the work of the Association, placing all such communications and all other reports of his work regularly and as often as required before the directors for their decision. He shall receive all money entrusted to his charge by the Association, and shall open up a trust account in any chartered bank as the directors may deem advisable, from time to time, where he shall immediately deposit in the same the funds which he has received to the credit of the association. He

freight and commission.

These prices are paid to the farmer less 5 per cent. for the expenses of carrying on the work of the association. Up to the present, however, the working expenses have not amounted to more than 31 per cent., the remaining 11 per cent. going back to the farmer in a dividend.

Besides giving the best market prices the association has been at times able to get premiums on the market prices, sometimes as high as 15 per cent. on barley.

The association purchases wire by the carload, also binders and implements, on which they can save as much as 10 per cent. These branches, however, have not as yet been much developed, the association principally devoting its time to the selling end.

To give an instance of the benefits of such an association to a farming community the writer in conversation with the secretary heard of a Vancouver buyer who asked the association to find him some earloads of cattle and hogs. The association named their price, the buyer said it was far too high, and that he could do better by going out and buying direct from the farmers. He went out the farmers on whom he called would not sell. These farmers were not members of the association and had nothing listed. He next day some of them came in and listed their produce and got 7c to 1c more through the association than what they were offered by the buyer. Another member had some hay listed at \$13 per ton. An Edmonton buyer refused the association \$12 and was offered; he went out to see the man who had the hay and offered him \$12.50, which was accepted. This member tried to get the association over the phone, but failed, and let his hay go at 50c a ton less than what the association could have got him.

Church of England Mission in Western Canada

An enterprise of much importance, particularly to the Anglicans but also to all interested in the religious and moral advancement of the West, will be undertaken by the Church of England in Western Canada. Unlike most movements necessitated by the circumstances of the churches in this land of beginning, it will be an effort to raise funds or to found an organization. Its aim will be purely spiritual; its object to revive and to deepen the religious life of the community, and to lead to the best of our Western existence as to tend to forget higher things.

The services of a band of experienced clergymen, men of all who have been accustomed to hold Missions in England and elsewhere, and some of them are of world wide fame, have been secured by a committee appointed by the Provincial Synod of the Anglican Church in Western Canada, and these services, twenty in number, will hold Mission services at 50 selected centres in the West, from Chelapeau to the east to Edmonton on the western verge of the prairie provinces.

Each Mission will last eight days, from Sunday to Sunday inclusive; during which services will be held for men, women and children respectively. Mass Meetings will be held in the larger towns, commencing on Wednesday, September 25, at which all the Missionaries will be welcomed to Canada.

The names of the Missionaries and the names are a guarantee of their excellence are as follows: Rt. Rev. the Bishop of Edinburgh, equally well known as a writer of devotional books and a preacher of power; Rt. Rev. Dr. A. S. Joselyne, Assistant Bishop of Jamaica, a noted speaker at brotherhood conventions; Rev. J. H. Ingham, formerly Bishop of Sierra Leone, and now Secretary of the Church Missionary Society; Rev. Canon E. A. Stuart of Canterbury Cathedral, who was leader of a similar mission held in New Zealand two years ago; Rev. J. J. Robinson, until recently Dean of Belfast; Rev. Paul H. Hall and Guy Pearce of Mirfield, Yorkshire; C. S. Quainton of Holford; P. Wilson of Bristol; P. L. H. Millard of Cardiff; Guy Rogers of Reading; D. J. Stather Hunt of Tunbridge Wells; E. R. Price Devereux of Woking; Cyril Hepler of Newcastle-on-Tyne; E. H. Mortimer of London, England; A. B. Body of Sunderland; P. T. Kirk of London, England; C. L. Burrows of Bournemouth; and P. G. Newton of Sarnia, Ontario; and Rev. S. M. Warner, Sandown Vicarage, Isle of Wight, England.

The mission campaign is divided into four periods of eight days each: September 25th to October 3rd; October 13th to October 20th; October 27th to November 3rd; and November 10th to November 17th. The intervening days will give the Missionaries an opportunity to rest and to see something of our Western land and its varied life.

A Correction

In a recent announcement of the picnic to be given by the Leslieville Literary Society, the date was given as August 3rd. It has since been changed to August 10th. As before announced, members and their friends are to meet at Bethel Union Church at one o'clock in the afternoon.

A Mighty Army of Clean Headed Canadians

Thousands and thousands of heads that were dandruff filthy a year ago are scrupulously clean today. This means that millions, yes billions, of dandruff germs have been annihilated, and cannot continue their pernicious work of hair destruction. But best of all it means

that at last there is a cure, an absolute certain cure for dandruff, one so prompt in its action and so marvellous in its results, that many are skeptical when told of what it has done. The Parisian Sage is the name of the quick-acting hair restorer that is responsible for a mighty army of clean headed Canadians, and its action is so certain that Gaetz-Cornett Drug & Book Co., the agents in Red Deer, guarantee it to stop falling hair, itching scalp, and cure dandruff in two weeks, or money back. Parisian Sage makes women's hair soft, lustrous and luxuriant in a few days. The price of this delightful money-back hair dressing is only 50 cents a bottle at Gaetz-Cornett Drug & Book Co., or direct, all charges prepaid, by Giroux & Co., Fort Erie, Ont.

YOU CAN OWN A HOME

A small cash payment and the balance like rent will make you the owner of a pretty, cosy, comfortable home, containing large hall and 5 rooms. A Home that is well built—the best of material throughout.

A place that you will be proud to call "Home." The feeling of liberty, freedom and real independence that comes to you the day you walk into your own home is something so thoroughly enjoyable that you should not let the first payment stand in your way.

We should like to have the pleasure of showing you one of these homes.

ROSS STREET RED DEER

SPECIAL NOTICE!

We beg to inform our friends that we have removed our office from over Vineberg & Co's store to the premises lately occupied by J. M. Carscadden's, gents furnishing store, three doors East of the Northern Crown Bank.

Besides our own business, we will carry on the business established by the Hall Werner Realty Co.

Those seeking employment should see us at once as we have some good openings. Call on us if you want Insurance or a Loan.

LIST YOUR PROPERTY WITH US.

DRUG STORE NEEDS

MUSQUITOES!

Don't suffer from these pests. Call and get something to keep them away. We have it, or something to put on the sores and swellings caused by bites and stings of insects.

WE RECOMMEND

Rezell Skeeter Skoot,
Nyals Mosquito Lotion,
Nadruco Fly Repeller,
Etc. Etc. Or—
Mentholine Balm for the bites

FLIES—FLIES—FLIES!

Don't let them get ahead of you. USE.

Nyals Fly Poison Pads,
Pyramid Fly Catchers,
Our Insect Powder,
Etc. Etc.
The Best of their kinds.

YOUR STOCK

Needs protection as well as yourself, as, if they are not protected they will soon be pulled down in flesh and producing ability.

International Fly Way
Is a good reliable preparation for keeping your stock free from flies.

THERMOS BOTTLES!

At no time of the year as now, are THERMOS BOTTLES so valuable as at this time.

For Picnics, to keep tea warm or water cold.

For the Baby, to keep Food warm all night.

For a hundred and one other purposes.

The Rev. N. D. Keith will conduct services on Sunday, August 4th, at Edwell at 11 a.m. and Willowdale 3 p.m.

The new buildings at the fair grounds are looming up, and the premises will soon look like a real fair ground.

Work is proceeding but slowly with the concrete bridge on Gaetz Ave. South owing to the high water in the creek.

You can get those pictures framed in time for the fair if you leave them with P. K. Griffin. Reduced prices on framing oil paintings for the exhibition.

When the Boy Scouts were at Ponoka they inspected the building and grounds of the asylum. Rather dangerous proceeding for some of them, eh what?

Flower gardens in town are pretty nearly three weeks ahead of what they were last year. There should be a great showing at the flower show on the twenty-first.

Mr. W. M. Jarvis and Mrs. Jarvis went to Calgary last week to meet Mr. Jarvis' father, Mr. A. M. Jarvis, from England. They returned to Red Deer in company with him on Monday.

On account of the warm weather, haymaking has started in earnest this week, and the week will see much timothy stacked if good conditions prevail. The hay crop is good this year.

From indications the flower show held last year will suffer a total eclipse. There's going to be something doing in flowers this year which will put past efforts entirely in the shade.

H. J. Snell is offering a Sylvan Lake souvenir to each of the first five ladies to make the grade to Sylvan Lake. Anyone getting to the lake since the recent rains earns a souvenir alright.

Mr. L. Brown, of Valley Centre, is greatly enlarging and improving his house. He believes in having fine buildings on his farms, and thinks the human comforts should come before those of the animals.

Prize lists of the Horticultural Society can be procured from W. T. Coote, men's wear store, on Centre Avenue, Mr. Davidson, publicity bureau, near the railway station, and from A. W. G. Allen's office in the News Block.

F. Mott, who has been looking around at the Coast for the past three weeks, informs us that he will return there to live, having bought an improved farm of 485 acres, just two miles from Nanaimo post office, where he anticipates farming in a small way.

Mr. F. S. Spence, of Toronto, President of the Dominion Day Alliance, and the best informed man in Canada on the Local Option question, will give an address in the Presbyterian Church, Monday evening, August 5th, to which all are invited. Don't fail to hear him.

On Tuesday night, last week, a burglar broke into the premises of W. R. Davis by cutting through the back window, and made away with some fifty dollars worth of revolvers, watches and other small stuff. Mr. Davis put the police on the track and the thief has not been discovered. Things like this are getting rather serious, and it is to be hoped that there will be some means found to nip such depredations in the bud.

The Red Deer Firemen won several events at Pincher Creek, where the Provincial tournament was held last week. The following went down: Geo. Scott, Ross, Robertson, Hovey, anderson, Taylor, Williams, Venables, Davis, Halliburton, Smith. They took second in the champion reel race. Hovey and Robertson won first in the coupling contest and Halliburton won the 100 and 220 yard races by splendid running. They took second in the relay race, and Venables took third in the half mile. They were well pleased with the way the Pincher Creek Brigade used them.

H. H. Hobart has opened a restaurant in connection with his ice cream parlor and confectionery. He has remodelled the store and secured additional room by leasing a portion of the store formerly occupied by J. M. Carscadden. The new restaurant is up-to-date in all its appointments, and the food and service are all that could be desired. Although this new departure has been in operation only a few days, the Crown Cafe has become one of the most popular eating places in Red Deer. During the day the cooking is in charge of a thoroughly experienced lady chef, with the result that the food has the appearance and taste that make home-cooked meals so appetizing. The new cafe serves both a la carte and table d'hôte meals—a la carte from 7 a.m. to 1 a.m.; lunch hours, 12 to 2 p.m.; dinner hours, 6 to 8 p.m.

Tonight, Mr. C. M. O'Brien, M.P. will address a meeting on Socialism, on the Town Square.

North Red Deer Council are doing much road work these fine days. Apparently they anticipate more rain, but perch the thought.

Matshuite, for forty-four years, Mikado of Japan, died yesterday morning, and Yoshito Ihera-Nomiyama succeeds him to the throne.

The floral feast is to be held on August 21st. How is your garden growing? Are you going to help prove that Red Deer is the "Garden City of Alberta?"

St. Luke's Sunday School will hold their picnic in Gaetz Park today. The children are to meet at the church at 1:30 and then go down to the park.

Mr. A. H. Trimble has a splendid advertisement for his Ayrshire cattle on the cover of the latest Nur-West Farmer. The front cover is entirely given up to a view of a part of Mr. Trimble's Ayrshires on their feeding ground.

Gaetz Park is getting to be a very popular place on Sunday afternoons. The park has recently been cleared more fully, the brush being cut away from the river bank, giving a fine view of the river from anywhere in the park. On Sunday afternoon there was a big crowd there, enjoying the shady seats and fine scenery.

M. Mecklenberg, A.M., the celebrated 25 year experienced eye specialist, of Archibald Block, Edmonton, will again be at the Arlington Hotel, Red Deer, Saturday, August 24. Spectacles, eye glasses and artificial eyes the very best at moderate charges. Absolute satisfaction guaranteed.

A picked soccer team from Calgary journeyed to Edmonton on Saturday to play a picked team of that place. They thought not of defeat but judged they had the game already won, but Edmonton thought otherwise and put up a strong argument. It was a great game. In the first half there were no goals scored, but after half Edmonton got busy and notched two counters, which seemed to rather flabbergast the Calgary boys. Calgary scored one goal, but the game went to the Northerners 2-1.

J. C. Adams was in and paid us a visit yesterday. He keeps a general store at Alabamra, about twelve miles west of Pithou. He says that the settlers around his district are in great need of a post office as it is a well populated district and many of the settlers have to drive twenty or twenty-five miles for their mail. He also said that many of their roads were impassable, which with a little fixing would make very fair highways, and he is circulating a petition in which their claims will be presented to the government.

MARRIED.

IT PAYS TO USE GOOD TOOLS but the best is no better than the cheapest when it is dull.

A SHARP SICKLE takes half the work off your horses. In fact sharp tools always make easy work and save time and energy.

OUR GRINDSTONES are easy running, mounted on wood or steel frames, turned by crank or treadle and will put a keen edge on an ax or hatchet, scythe or sickle in a few minutes.

WE ALSO HAVE whetstones, and emerystones, as well as oilstones for mechanics tools.

WE price such goods on a mighty close margin, for we sell good tools and want them to do good work.
